### PROFILE

Versatile and driven technology enthusiast with expertise in web development, video editing, and Arduino-based projects, complemented by the discipline and determination of a Black Belt in Karate. Passionate about transforming ideas into practical and creative solutions, I combine strong technical skills with problem-solving abilities to build responsive websites, produce engaging visual content, and develop innovative hardware projects. Known for my dedication, adaptability, and continuous learning mindset, I strive to deliver high-quality results while embracing new challenges and opportunities for growth.

### Projects Done Till Now
